Set of 5 Pcs

Our Scalers

Compare our scalers and curettes with the best in the industry and you will immediately recognize we are equal in every way but one... price. Note the deep precision knurling for better tactile feel. The same high-grade stainless steel tips, the same light weight (under 18 grams) for less hand fatigue, the same professional craftsmanship, and surpassing the highest industry standards. Of course, any manufacturer can make these claims, but we guarantee and certify ours.

Beautiful, mirror finish on entire tool.
 Deep cross-hatch knurling for better non-slip control.
 Titanium coated color to protect the blood stream.
 DMS maintained for excellent balance, precision and consistency.
 8.8 mm diameter for easier handling and better tactile sensitivity...
 Better control throughout the day.
 Evenly balanced for consistent control when switching from tip to tip.
 120 mm length of handles without tips.

- High-polish mirror finish tips.
- Manufactured within the guidelines of the FDA quality assurance system for good manufacturing practices.
- Highest grade German stainless steel, razor sharp, durable tips. Rockwell hardened to 60 RHc.
- 27 of the most popular designs from Graceys to McCalls to Columbias, and many European patterns.
- All instruments are guaranteed against defects in material and workmanship.

- All instruments bear the CE mark, emblematic of the European Community's highest standards.
- Customer satisfaction guarantee, too!
- Less than 20 grams ... Lightweight for less hand fatigue.
- Manufactured to the most exacting standards so the 50th instrument you buy is exactly like your first.
- You decide ... Why pay more for the same high-quality instruments?
